ABOUT THE NUMBERS IN THIS REPORT

Numbers in this report cover the 12-month period ending December 31, 2021. Community impact is estimated by using state-specific multipliers as defined by poultry industry economic impact data.

WE BELIEVE IN RESPONSIBLE FOOD AND AGRICULTURE

Our approach to corporate responsibility is summed up in the phrase: We believe in responsible food and agriculture.® That philosophy supports our Corporate Vision: "To be the most trusted name in food and agricultural products®." Our belief in responsible food and agriculture plays out in our relationships with all our constituents and encompasses our commitment to being a leader in quality, food safety, environmental stewardship, animal welfare, community involvement, associate well-being and strengthening agriculture.

- We believe in responsibly producing safe, quality, affordable food and agricultural products for customers and consumers worldwide.
- We believe in responsibly helping customers prosper with flexible, forward-thinking solutions for agriculturally based products from a uniquely trusted name.
- We believe in being responsible stewards of our natural resources.
- We believe in responsibly raising animals for food.
- We believe in being a responsible employer, investing in our associates' growth, safety and well-being.
- We believe in supporting the communities where and with whom we do business.

FIGHTING HUNGER

We believe that in a country as rich in resources as ours, no one should have to go hungry. That is why Perdue partners with Feeding America and its network of community food banks and pantries to ensure the safe and effective distribution of our product donations. We are committed to making a minimum annual donation to Feeding America of 4 million pounds of food.

Since 2001, Perdue has donated more than 88 million pounds of protein nationwide through Feeding America.

DELIVERING HOPE TO OUR NEIGHBORS

Our corporate giving is guided by the belief that we can make the most difference by supporting our communities through a grassroots contributions program and the volunteer efforts of our associates.

That tradition continues through our Delivering Hope To Our Neighbors® outreach to improve quality of life and building strong communities. We strive to strengthen our communities by supporting education, agriculture, food safety, environmental sustainability, health and social services, public safety, youth programs and fighting hunger and poverty. We also support events that celebrate the heritages and cultures of our communities.

Monetary contributions are managed through two programs. Each major Perdue location has discretionary funds to support local charitable programs where large numbers of our associates live and work, while the Franklin P. and Arthur W. Perdue Foundation underwrites larger grants. In both programs, we believe in putting our resources where there is direct benefit to a broad spectrum of the community.

A FOUNDATION FOR COMMUNITY SUPPORT

Company founder Arthur W. Perdue recognized the importance of

Franklin P. & Arthur W. Perdue Foundation

supporting our communities in 1957, when the Franklin P. and Arthur W. Perdue Foundation was established. Carrying on the tradition, Frank Perdue provided for the future of the foundation through the generous support of his estate. The foundation provides grants on behalf of Perdue Farms to benefit communities where large numbers of our associates live and work.

In 2021, the Franklin P. and Arthur W. Perdue Foundation awarded grants totaling more than \$1.45 million to 88 nonprofit organizations to improve the communities where our associates live and work.
