## FIGURES IN THIS REPORT

*Numbers in this report cover the 12-month period ending Dec. 31, 2023. Community impact is estimated using state-specific multipliers defined by poultry industry economic impact data.*

## CORPORATE RESPONSIBILITY AND COMMUNITY INVOLVEMENT

Our approach to corporate responsibility is summed up in the phrase: We believe in responsible food and agriculture.® That philosophy supports our Corporate Vision: “To be the most trusted name in food and agricultural products.” Our belief in responsible food and agriculture is evident in our relationships with all our constituents and embodies our commitment to leadership in quality, food safety, environmental stewardship, animal welfare, community involvement, associate well-being and agricultural improvement.

- We believe in responsibly producing safe, quality, affordable food and agricultural products for customers and consumers worldwide.
- We believe in responsibly helping customers prosper with flexible, innovative solutions for agriculturally based products from a uniquely trusted name.
- We believe in being responsible stewards of our natural resources.
- We believe in responsibly raising animals for food.
- We believe in being a responsible employer, investing in our associates’ growth, safety and well-being.
- We believe in supporting the communities where and with whom we do business.

## FIGHTING HUNGER

We believe that in a country as rich in resources as ours, no one should go hungry. That is why Perdue partners with Feeding America and its network of community food banks and pantries to ensure the safe and effective distribution of our product donations. We are committed to making a minimum annual donation to Feeding America of 4 million pounds of food.

Since 2000, Perdue has donated nearly 100 million pounds of protein nationwide through Feeding America-affiliated food banks, the equivalent of more than 83 million meals.

## DELIVERING HOPE TO OUR NEIGHBORS

Our corporate giving is guided by the belief that we can make the most difference by supporting our communities through a grassroots contributions program and the volunteerism of our associates.

That tradition continues through our Delivering Hope To Our Neighbors® outreach to improve quality of life and build strong communities. We strive to strengthen our communities by supporting education, agriculture, food safety, environmental sustainability, health and social services, public safety, youth programs and fighting hunger and poverty. We also support events that celebrate the heritage and culture of our communities.

Monetary contributions are managed through two programs. Each major Perdue location has discretionary funds to support local charitable programs where large numbers of our associates live and work, while the Franklin P. and Arthur W. Perdue Foundation underwrites larger grants. In both programs, we believe in putting our resources where they directly benefit a broad scope of the community.

## A FOUNDATION FOR COMMUNITY SUPPORT

Company founder Arthur W. Perdue recognized the importance of supporting our communities in 1957, when the Franklin P. and Arthur W. Perdue Foundation was established. Carrying on the tradition, Frank Perdue provided for the future of the foundation through the generous support of his estate. The foundation provides grants on behalf of Perdue Farms to benefit communities where large numbers of our associates live and work.

*Franklin P. & Arthur W. Perdue Foundation*

In 2023, the Franklin P. and Arthur W. Perdue Foundation awarded grants totaling nearly \$1.5 million to 69 nonprofit organizations to improve our associates’ communities.

## OUR COMPANY AT A GLANCE

We're a fourth-generation, family-owned, U.S. food and agriculture company. Through our belief in responsible food and agriculture, we are empowering consumers, customers and farmers through trusted choices in products and services.

Now in our company's second century, our path forward is about getting better, not just bigger. We never use drugs to promote growth in our poultry and livestock, and we are actively improving our animal welfare programs. Our brands are leaders in no-antibiotics-ever chicken, turkey, pork, beef and lamb, and in USDA-certified organic chicken and beef. Learn more at [Corporate.PerdueFarms.com](https://www.perdue.com/corporate).

## PERDUE AGRIBUSINESS

Perdue AgriBusiness is an international agricultural processing and merchandising company. We source, merchandise and process agricultural commodities.

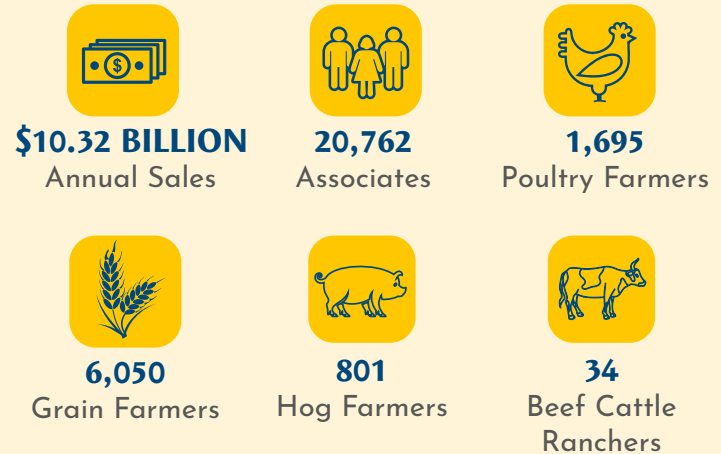

Our diverse portfolio of products includes conventional and organic grains, soybean meal, precision-blended feed ingredients, and conventional and specialty seed oils for food and other uses. We help our customers and family farmers prosper with flexible, innovative solutions. Our business started as a family farm, and we know our future depends upon continually earning the trust of farmers and customers. Learn more at [PerdueAgriBusiness.com](https://www.perdue.com/agribusiness).

## PERDUE FOODS

Perdue Foods consists of a premium protein portfolio, including our flagship PERDUE® brand, the No. 1 brand of fresh chicken in the United States, Niman Ranch®, Coleman All Natural Meats®, and Yummy®, our pet brands, Spot Farms® and Full Moon®, and is available through multiple outlets, including retail, foodservice, club stores and our direct-to-consumer website [PerdueFarms.com](https://www.PerdueFarms.com). We're recognized as the first to successfully market chicken by branding and advertising a product measurably superior to the competition, and we've been innovating since. All our chickens are fed an all-vegetarian diet with no animal by-products. They are cared for in a clean, safe environment, and our programs are verified by the USDA. We've led the way in raising healthful poultry without antibiotics, and we're setting new standards for animal care. Learn more at [Perdue.com](https://www.Perdue.com).
